\* \* \*

**B. *Special exceptions.*** The Board of Adjustment may authorize the following special exceptions regarding nonconforming structures and/or premises.

1. *Major Improvements and Enlargement of a Nonconforming Structure on Nonconforming Premises.*

The Board may grant a special exception to allow major repair, alteration, renovation, enlargement, or extension of a nonconforming structure in situations when all nonconformity in the premises will not be eliminated where the Board determines that:

The elimination of the nonconformity is not reasonably possible because it cannot be accommodated (because of one or more of the following):

- (1) without adding additional land; or
- (2) without moving a substantial structure on a permanent foundation; or
- (3) without creating an unacceptable situation regarding practical and reasonable utilization of the property, particularly in regard to access and circulation; or
- (4) without creating a health or safety hazard.

Note: The special exception approval standards identified in [Section 5-206](#) (L) are not applicable to this subsection.

2. *Major Reconstruction.*

The Board may grant a special exception to allow the major reconstruction of a structure with dimensional nonconformity on the existing foundation where the Board determines that:

- (1) the structure previously existed without substantial impact on the adjacent properties; and
- (2) that the reconstruction will not create more adverse impacts.

Note: The special exception approval standards identified in [Section 5-206](#) (L) are not applicable to this subsection.

\* \* \*

## 1-600 – TEMPORARY USES AND STRUCTURES

\* \* \*

### 1-603 – Special Exceptions.

The Board of Adjustment may authorize the following Special Exceptions for temporary uses. In accordance with [Section 5-206](#), the Board may require that a special exception be: (1) revocable; (2) effective for a specified time period; or (3) subject to one or more conditions.

#### A. Temporary classroom buildings.

The Board may grant a special exception to allow the use of temporary classroom buildings by elementary and secondary schools, churches, boy/girl scouts, and similar organizations where the Board determines that the approval standards identified in [Section 5-206](#) (L) are met.

NOTE: When considering the approval standards identified in [Section 5-206](#) (L), such temporary classroom buildings shall be considered “compatible with the surrounding neighborhood” if the following criteria are met:

1. *Permanent Site.*

A temporary building is prohibited unless it is to be located on a site where an existing permanent building housing an authorized main use is located. For purposes of this requirement, an authorized main use is one for which a valid certificate of occupancy has been issued. The use of the temporary building shall be limited to the main use for which a certificate of occupancy has been issued or an authorized use accessory to that main use.

2. *Proposed Construction.*

The applicant shall submit a proposed schedule and a plan of construction/expansion of permanent facilities that eliminate the need for the long-term use of the temporary buildings.

3. *Alternate Space.*

There are no reasonable alternatives for providing needed space in a functional manner.

4. *Site Adequacy.*

Parking, circulation, electrical and utility connections, drainage, fire protection and all other health and safety considerations can be accommodated and provided for with the addition of temporary buildings in an orderly and safe manner.

5. *Adjacent Properties.*

The placement of the temporary buildings on the site will not be injurious to the use and enjoyment of other property in the immediate area for purposes already permitted.

6. *Setbacks.*

The placement of the temporary buildings on the site will comply with all setback requirements.

Approval of temporary classroom buildings shall be for no more than a three-year period, provided that the Board may specify conditions under which the approval period may be extended.

**B. *Temporary residences.***

The Board may grant a special exception to permit placement and occupancy of a temporary residence, which may be a mobile home, under the following enumerated circumstances listed below:

1. *Emergency Residence.*

A temporary residence located on the same lot as a residence made uninhabitable by fire, flood, or other natural disaster and occupied by persons displaced by such disaster during the reconstruction of the permanent residence.

2. *Construction Residence – Nonresidential.*

A temporary residence located on a nonresidential construction site and occupied by persons having construction or security responsibilities over such site.

The special exception approval standards identified in [Section 5-206](#) (L) are not applicable for said temporary residences. A special exception for temporary residences identified in this sub-section shall be approved where the Board determines that:

1. the building site is of a size sufficient enough to accommodate such temporary residence and the related construction so as to meet required setbacks; and
2. the temporary residence will not substantially injure the use and enjoyment of other property in the immediate area.

Approval may be for no more than one (1) year, provided that the Board may specify conditions under which the approval period may be extended.

\* \* \*

**G. *Special exception for tree preservation:*** Where removal of a protected tree would become unnecessary if the development standards required by zoning were modified, the application for removal shall be denied and an application to the Board of Adjustment shall be initiated at no fee. The Board shall be authorized to approve a Special Exception for Tree Preservation, which may modify the development standards required, where the Board determines that:

- (1) the approval standards for a special exception identified in [Section 5-206](#) (L) are met; and
- (2) the Board shall consider the value and benefit of tree preservation.

An existing accessory building shall not become an oversize structure due to the attachment of a minor building with separate entrances. Buildings exceeding 10% of the lot area are generally considered to be incompatible.

\* \* \*

**C. Front or Exterior Porch Covers.**

1. A porch cover encroaching into the front or exterior side yard setback may be approved as a Special Exception if the Board determines that the porch cover meets the approval standards contained in [Section 5-206](#) (L). The Board of Adjustment may authorize the following Special Exceptions in accordance with the approval standards contained in [Section 5-206](#) (L); and where it finds that the peculiar nature of the use, the shape or size of the property, or other exceptional conditions would justify such action.

**A. Off-site parking.** A special exception may be granted by the Board to allow required parking spaces to be provided on a building site other than that of the use for which the spaces are required. In general, such exception may be considered for employee parking or for institutional type uses such as hospitals, churches, or other uses where longer term parking is common. A permanent and irrevocable easement of the parking facilities in favor of the premises to be benefited thereby shall be dedicated and recorded in Dallas County records as a condition of such use.

**B. Joint use parking.** A special exception may be granted by the Board to allow joint use or collective parking. Joint use parking shall mean that required spaces provided for one use may also be credited as required spaces for a complementary use. A permanent and irrevocable easement of the parking facilities in favor of the use to be benefited thereby shall be dedicated and recorded in Dallas county records as a condition of such use.

The following definitions and examples shall be used as guidelines in considering requests for special exceptions for joint use parking:

\* \* \*

**C. Parking reduction.** The Board may approve a reduction in required parking if the use meets the approval criteria for a special exception, as contained in [Section 5-206](#) (L), and the Board finds that the reduction in parking will not adversely impact parking on adjacent properties, the provision of public safety, or unreasonably impede the public right-of-way. As a guideline for evaluating a mixed-use development, the Board may consider the shared parking benefits identified in [Section 4-954](#) (A)(8) and the availability of public parking within proximity of the site.
