GUIDELINES AND CRITERIA

FOR GRANTING TAX ABATEMENT IN REINVESTMENT ZONES CREATED IN THE CITY OF MESQUITE, TEXAS

POLICY STATEMENT

The City of Mesquite is committed to the promotion of high quality development in all parts of the city and to improvement in the quality of life for its citizens. In order to help meet these goals, the Mesquite City Council has adopted Guidelines and Criteria for granting commercial and industrial tax abatement as authorized by Chapter 312 of the Texas Property Tax Code.

As outlined in this application packet, these Guidelines and Criteria provide procedures for the application and evaluation of potential reinvestment zones and provide comprehensive criteria governing tax abatement agreements. Nothing herein shall imply or suggest that the City of Mesquite is under any obligation to provide tax abatement to any applicant. All applicants shall be considered on a case-by-case basis, and the decision to approve or deny tax abatement shall be at the discretion of the City Council.

Further, it is the policy of the City of Mesquite to grant tax abatement for the purpose of attracting new business and industry to the City and to encourage expansion and modernization of existing business facilities, resulting in the creation and retention of job opportunities within the community. This policy applies to owners of real property and provides for full or partial exemption of certain real property and/or of certain business personal property from ad valorem taxes. Special terms and conditions may be set in the agreement governing each specific tax abatement.

Section 1. Definitions

- (a) "Abatement" means the full or partial exemption from ad valorem taxes of eligible property in a reinvestment zone designated by the City of Mesquite for economic development purposes.
- (b) "Agreement" means a contractual agreement between a property owner and/or lessee and the City of Mesquite, Texas.
- (c) "Base Year Value" means the assessed value of eligible property on January 1st of the year of the execution of the agreement plus the agreed upon value of eligible property improvements made after January 1st but before the execution of the agreement.
- (d) "Deferred Maintenance" means improvements necessary for continued operation which do not improve productivity or alter the process technology.
- (e) "Eligible Facilities" means new, expanded or modernized buildings and structures, including fixed machinery and equipment, which are reasonably likely as a result of granting abatement to contribute to the retention or expansion of primary employment, an increase in the property tax base of the City, or to attract major investment in the reinvestment zone that would be a benefit to the property and that would contribute to economic development within the City of Mesquite.
- (f) "Expansion" means the addition of buildings, structures, machinery, equipment or payroll for purposes of increasing production capacity.
- (g) "Facility" means property improvements completed or in the process of construction which together comprise an integral whole.
- (h) "Hotel" means a commercial structure which provides overnight accommodations to travelers and which contains one hundred-fifty (150) rooms or more.
- (i) "Modernization" means the replacement and/or upgrading of existing facilities which increase the productive input or output, updates the technology or substantially lowers the unit cost of an operation. Modernization may result from the construction, alteration, or installation of buildings, structures, machinery or equipment, or both.
- (j) "New Facility" means a property previously undeveloped which is placed into service by means other than or in conjunction with Expansion or Modernization.

Once value has been established, the Chief Appraiser will notify the City of Mesquite of the amount of the assessment.
- (b) The Abatement Agreement shall stipulate that employees and/or designated representatives of the City of Mesquite will have access to the reinvestment zone during the term of the Abatement to inspect the Facility to determine if the terms and conditions of the Agreement are being met. All inspections will be made only after the giving of twenty-four (24) hours prior notice and will only be conducted in such a manner as to not unreasonably interfere with the construction and/or operation of the Facility. All inspections will be made with one or more representatives of the company or individual and in accordance with its safety standards.
- (c) Upon completion of construction, the designated representative of the City of Mesquite shall annually evaluate each Facility receiving Abatement to insure compliance with the Agreement, and a formal report shall be made to the City Council of Mesquite regarding the findings of each evaluation.

Approval shall not be unreasonably withheld.

Section 8. Variance
